INFO. REPORT NO.

- 1. Table I shows the existing trade balance between the DDR and the countries listed as of 1 November and 1 December 1950. These balances concern earlier trade agreements which are reckoned in U.S. dollars only.
- Table II shows trade balances on the same dates but arising out of later agreements which are in terms of rubels with eastern countries and in the currencies of the country of agreement in the case of western countries.
- 3. Table III shows trade belances resulting from free trade outside of the treaties in terms of the currencies of the countries concerned.
- 4. Regardless of the currency of the country concerned the bookkeeping is in U.S. dollars thus the figures on all the tables are in \$1,000.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
